

TACONIC®

Finding a better way

PTFE and silicone coated glass fabrics, tapes, and belts

ISO 9001 Registered

Applications

- ▶ Packaging
- ▶ Food Processing
- ▶ Automotive
- ▶ Screen Printing
- ▶ Aerospace
- ▶ Composite Molding
- ▶ Renewable Energy
- ▶ Textiles
- ▶ Carpet/Flooring Fabrication
- ▶ Plastics/Chemicals/Rubber
- ▶ Lamination
- ▶ Plastic Bag Manufacturing
- ▶ Trace Detection Consumables
- ▶ Thermal Spray Coating

Benefits of PTFE Coated Glass Fabrics

- ▶ Electrical and Thermal Insulator
- ▶ Weather and Chemical Resistant
- ▶ Non-Flammable/UL 94 V-0
- ▶ Nonstick
- ▶ Temperature Resistant (-73 °C/-100 °F to 260 °C/500 °F)
- ▶ Lightweight
- ▶ Durable
- ▶ UV Resistant

Over 60 Years of Innovation

Lester T. Russell, the acknowledged inventor of applying PTFE to glass fabric, founded Taconic in 1961.

The company produces advanced engineered composite materials for use in diverse markets. Taconic is dedicated to quality, innovation, and environmental safety.

Our talented R&D, engineering, and multi-lingual sales support network ensures success in solving our customers' application challenges around the globe.

Through innovative company initiatives, we're helping our customers 'Find a Better Way...'. Including applying our pre-existing coating expertise, and manufacturing infrastructure, to your specific woven substrate needs.
